BEST HOPES

Imagine you are on your way home from this conference, and you get talking to someone (not SF) what will you tell them has happened over the 2 or 3 days to make it a good conference for you

BEST HOPES

Imagine in 6 months time the unthinkable happens and you are feeling unmotivated, de skilled etc as a SF practitioner – what needs to happen for you to turn this round?

BEST HOPES

Imagine your employers decide you can't use SF under any circumstances - (you MUST use another approach).

You cant leave the job - what will you do to stay motivated, and respectful of their wishes but still offer something to your client/patient?
