

What is characteristic of sf perspective in Finland nowadays?

Based primarily on discussions in the board of Ratkes

- fostering positiveness, appreciation, hope, playfulness, warmth, creativity, humor, equality, cooperation, curiosity and humaneness
- feet on earth, dialogical, client centred, empowering, balance between dreaming and realism, staying by possibilities, always possible to do something, belief in change
- beauty and goodness found everywhere
- multi-voiced, multi-professional
- permission to do what works and borrow from other traditions, no need to do what doesn't work
- focus on progress and goal-oriented or staying with what feels useful

Different paths for a good future
